Family Forms

The family forms below are designed for use by everyone, but are especially helpful to individuals who wish to represent themselves (pro se) in court matters related to family law.

If you have a question about the *content* of the forms, or you can't find the one you are looking for, please [contact the Self-Help Center nearest you](#).

Not all motions or other documents that would be required in any given individual's specific case will be found here. What you *will* find below are forms that the Florida Supreme Court has approved for public consumption, based upon opinions the Court has issued.

How the Forms Work

The forms below are listed chronologically according to the section of *Florida Rules of Court* that pertains to family law, which is section 12. Therefore all the following forms have a number 12 prefix.

The forms have been created in a WordPerfect 8 format. Beside each form name, you will have an option of opening the form three different ways. **Normally you will want to open them through the "PDF" option.** Only choose "ZIP" or "EXE" if you understand these two program options and you think your computer can handle these two operations.

The forms can be completed on-line if you choose the PDF version. If you choose the ZIP or EXE versions, the forms can be saved to your hard-drive and then filled out.
